

(3 Players: 2 DSP and 1 consumer)

### **Scenario 3:**

Chris has said several times throughout the day that he does not want to go home on the weekends when his brother is home.

Staff 1 tried each time to redirect Chris to talk about something else. Chris' family is due to arrive at 5pm to take him home for the weekend.

At 2:45 Chris walked out of the house and walked down the sidewalk.

Staff 1 followed Chris down the sidewalk asking where he was going.

Chris turned around yelled at Staff 1 to "leave me alone" and then began to yell profanities at Staff 1. Chris yelled that he was leaving so that he did not have to go home anymore on the weekends.

Chris then yelled that he was going to call the police, and that he "might have to hurt somebody".

Staff 2 was driving up the street on the way to work when he came upon Chris and Staff 1. Staff 2 saw neighbors looking out their windows and doors, and heard Chris yell at them to "go to hell".

Staff 2 pulled over to the curb, stopped his car and got out.
